

FAST FOOD Shutdown

(Paralisação)
04/10

CHAMANDO TODOS OS DRIVERS!

No mês passado houve várias paralisações e protestos em quatro cidades, devido à redução do valor que a Uber e a Deliveroo pagam aos drivers.

No dia 4 de outubro, no mesmo dia que os trabalhadores do McDonald's, da Wetherspoons e da TGI Fridays vão fazer greve demandando £10 por hora, nós vamos ir às ruas e paralizar o serviço de delivery, e fazer a nossa demanda de £5 por entrega, depois de já descontada a taxa da Uber, mais £1 por extra mile.

Nós vamos mostrar a essas empresas que, se elas querem fornecer um serviço de qualidade aos seus clientes, então eles têm que atender as nossas demandas.

Espalhe essa notícia na sua área, organize um ponto de encontro na sua cidade, e visite os restaurantes pedindo aos motoristas para desligarem o app em solidariedade ao dia de paralisação.

CUSTOMERS

Food delivery drivers are going on strike on October 4th.

Drivers often only get paid per delivery, meaning their pay varies day-to-day and week-to-week. After expenses and fees, many drivers make little more than minimum wage.

Despite this, **Uber Eats has introduced a pay cut**, reducing the payment per delivery from £5 to £2.50. These new rates will force many workers into poverty.

Meanwhile, at **Deliveroo**, there are constant changes to working conditions, making life stressful and unpredictable for drivers.

In response, riders have chosen to strike on October 4th and they're asking for your support.

They are demanding that Uber Eats reverse the pay cut and make other improvements to working conditions. Deliveroo and Just Eat drivers are joining in solidarity.

Please don't order from Uber Eats, Deliveroo, or Just Eat on October 4th.

Delivery drivers work hard to make sure you have food on the table. Now they're asking you to return the favour.
